

Metso

Material transportation solutions to match your sustainability targets

TRUCK BODY AND LINING »

Haul more with less

 up to **14,600**
less liters of fuel = 200 tonnes
less CO2 per truck/year

 up to **30%**
lighter = more payload, less fuel

 up to **300%**
longer wear life
compared to steel

WEAR LINING »

Wear solutions that protect your assets

 **Less waste**
better liner utilization using
WearSense™ remote monitoring

 up to **70%**
fewer hours of risky maintenance

 up to **400%**
longer wear life

CONVEYOR SOLUTIONS »

Safe, clean and spillage-free conveying

 up to **30%**
lower energy consumption
with ESI idlers

 up to **19%**
more uptime = fewer hours
of risky maintenance

 **Less dust**
with conveyor sealing system

EQUIPMENT AND ASSETS »

Designed to address safety, flow and spillage challenges

 **Improved**
safety with Metso
chute solutions

 **Less noise**
and wear with
Wearback™ chutes

 **Cleaner**
working environment = less
spillage with sealing system

SERVICES AND PARTNERSHIP »

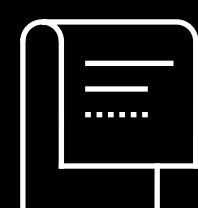

Working with you to drive continuous KPI improvements

 **Minimized**
travel emissions using
remote service technicians

 **Safer repairs**
with fewer/shorter
maintenance stops

 **Reduced waste**
prolong the life of older
equipment to avoid CAPEX

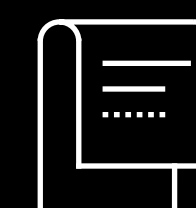

More payload, better working environment
» Terrafame case

Dust and noise free transport of waste
» Maritza case

Better material utilization
» WearSense™ article

Longer life, safer operations
» LKAB case

Optimized energy efficiency
