## Screening solutions to match your sustainability targets

### SCREENING MEDIA »

Long-lasting, optimized media for an efficient process

 **Lower risks**  
with fire-retardant rubber

 **Safer**  
with the Hammerless Attachment System

 **Less water**  
with self-cleaning media

### SPARE PARTS AND UPGRADES »

OEM spare parts prolong the life of your screen

 **Less emissions**  
with long-lasting OEM parts

 **Safer**  
with reliable parts

 **Longer life**  
and less waste with refurbished parts

### LININGS/DISCHARGE CHUTES »

Wear solutions that protect your assets

 **100% recyclable**  
metallic liners - reduced use of raw steel and alloys

 **Improved safety**  
by minimizing manual handling

 **up to 400%**  
longer wear life

### SERVICES AND PARTNERSHIP »

For a safer and more efficient operation

 **Safer**  
with fewer/shorter maintenance stops

 **Less emissions**  
with optimized design

 **More efficient process**

### SCREENS »

Investing in a modern-day machine may significantly lower your emissions and improve safety

#### UFS SERIES™ SCREENS

 **up to 25%**  
reduced energy consumption

 **Lower**  
circulating load

 **Improvements**  
in all downstream processes

#### BSE SERIES™ SCREENS

 **No water**  
or tailings dams needed in the process

 **up to 30%**  
screening capacity increase

 **Lower**  
energy consumption

#### EF SERIES™ SCREENS

 **No water**  
or tailings dams needed in the process

 **up to 30%**  
increased uptime

 **up to 19%**  
greater throughput

**7% increased capacity**  
» Nexa case

**18% more efficient process**  
» Hunchun Zijin case

**67% fewer media change-outs**  
» Milpillas case

**No water, less energy**  
» BSE release

**Safer and faster change-outs**  
» Hammerless video
